

**The “DIRTY DOZEN” Aspects of THLN!
12 Very Incriminating Points About THLN!
Documentation follows this summary!
Texas “Humane” (??) Legislation Network =
Horned Devils Masquerading as Angels!**

(Texas Pet Protect Is 100% Funded Internally; Not Sponsored By Any Other Group; Receives Content From No Other Group; Offers Nothing to Purchase; Seeks No Donations; Is Public Service Informational And Activist; seeks to save pets from cancer, especially mammary cancer!)

1) THLN is a tumor-like cluster of appalling cold-blooded demagogues sleazily posturing as sweet warm-hearted benefactors of pets and persistently manipulating weak mentalities by relentlessly exploiting this emotion tripping buzzword “humane” for all the money they can bamboozle. Once vulnerable minds see this paralyzing buzzword “humane” this scheming group has appropriated near immunity against factual criticism. THLN expects this rigged flypaper catchword to give them carte blanche to get away with literally anything as long as they show a Mephistopheles grin while deceptively posing with pets. To those so easily reeled in by this Machiavellian con word “humane” we cite the centuries old French proverb, “the exact contrary of what is generally believed is often the actual truth.” Tiny minds are so easily reeled into this slippery “humane” con job like iron filings following a magnet in a kid’s game. Witless THLN loyalists as if under mind control prattle like perplexed morons trapped in a bewildering hall of mirrors and robotically chanting to the gloating THLN president “Imhotep! Imhotep!” Of the spellbound THLN rank and file we ask the question, “How does anyone get to you? How do I get inside those twisted guts of yours?” “Rio Conchos” 1964. I was elated when I first found THLN in a web search---they’ll help get the Texas Pet Warning Notice Protection Law introduced and passed I thought. This has to do with cancer prevention and be sure to read

the section on cancer here for something startling most haven't seen. After initial positive burst they went totally silent as they realized "but we already have a point of fundraising appeal, tethering dogs! And we can just put his idea on the shelf for later use to shake people down for more money, no matter that numerous pets will die in the meantime!" More on this virulent stance of THLN in #2! "They call themselves saints but they're devils! It makes me SICK to see them!" ---"Big Valley" 3/10/1969.

2) THLN delays beneficial pet laws till such time as it can seize on issues as points of fund-raising appeals, delaying benefits to pets to boost its money-grubbing goals. THLN limits the number of issues per legislative session it uses as points of public appeal for donations so as to be able to remain in business into the future and leech persist in snatching and filching finances from gullible donors by omission of major material fact about its gassing record; and offers to leave heirs in the cold asking people to change their wills. Meantime pets suffer due to THLN sabotaging beneficial pet bills when not introduced with THLN's "Sacrosanct Imprimatur" ("state legislative syndicate/cartel"). If a THLN flunky doesn't intro a bill, THLN exerts to get it crushed as in Texas HB 3450 in spring 2011! In summer 2018 THLN was asked to get a simple educational bill introduced for reducing mammary cancer in pets. THLN refused to do anything with this as they already seized on "tethering" as their money sucking vortex appeal. When the law they sought was blocked, we submit THLN was privately elated as they could then continue "milking" the "tethering" appeal for more continued income from trusting simple minded low GPA suckers getting the "humane" donations shakedown. "The Flim-Flam Man" 1967 movie comes to mind and the era of money-grubbing televangelists epitomized by "make a \$1000 vow of faith" Robert Tilton who had old ladies eating cheap dog food to send him money.

3) THLN hollers at its site they get credit for ending gassing death of shelter pets as of spring 2013 legislative session in Austin. THLN is intentionally omitting the essential material fact that in spring 2011, THLN frantically mobilized like a German Panzer division to blitzkrieg defeat Texas House Bill 3450, the Companion Animal Protection Act which if passed, would have ended gassing of shelter pets a full TWO YEARS SOONER. THLN caused 30,000 Texas shelter pets to be denied relief from savagely torturous death by carbon monoxide gassing; then wearing a classic LIAR'S MASK, the THLN in banshee decibels shrieks that THEY ended gassing of pets; when in fact, THLN OBSTRUCTED, DELAYED, HINDERED, STALLED and POSTPONED the end of agonizing gassing by TWO YEARS! FALSE PRETENSES!! Money donors aren't enabled to make a fully informed decision! This "humane" (??) THLN gifted 30,000 Texas shelter pets, all looking out of their cages with hopeful eyes, a sadistic nightmare death by horrendous carbon monoxide gassing, when at the least a much less stressful death by injection could have been had for them, absent the merciless THLN's antiprogressive obstructionism. Now comes malodorous and pestilential THLN with the boundlessly farcical charade of giving themselves the accolade of having brought an end to gassing! We find a news release from May 13, 2013, "ASPCA, THLN Welcome Texas Law Banning Animal Gas Chambers," and no mention they delayed this relief for TWO YEARS! THLN = "Terrible Hellish Liar's Network!" Besides money, THLN is about ego, power and control. "YOU WILL WORSHIP ME!" ---"Star Trek" 9/22/67.

4) THLN works with persons of very debased and profoundly sullied low moral character including Dan Huberty, drunk and disorderly legislator who tried to attack a reporter; Victoria Neave, legislator arrested for drunk driving; Ron Reynolds, crooked legislator jailed and disbarred for the criminal offense of shyster barratry; Garnet Coleman, legislator pulled over for endangering lives by driving 94 MPH; Harold Dutton, legislator charged with DWI, ordered to pay

overdue child support, on Texas Monthly list of worst legislators; he later pushed a bill to lighten up on first time offenders; "Charles Schwertner would not cooperate with University of Texas investigation." 2/6/19 Dallas Morning News (One of Texas Monthly worst legislators 2015); Sarah Davis, Donna Campbell and Joan Huffman, state legislators on Texas Monthly list of Worst Ten Legislators; Angie Button, state lawmaker, public temper blowups; brief summary only here! On 12/7/2017 Texas Tribune reported a Democrat women's group called on State Senator Borris Miles of Houston to resign after reports of sexual misconduct; Miles earlier was suspected of deadly conduct. THLN pal, mean spirited Linda Koop favored reducing government transparency and imposing tax increases without voter approval. THLN has lots of "happy hour" fundraisers and we wonder how many DWI arrests may have taken place afterwards! Any unreported sideswiping of parked cars by "tipsy" drivers? Do yall speed in active school zones? "TEQUILA FOR ALL OF US!" ---"For A Few Dollars More" (1965) "I SAID GIVE ME THE BRANDY!" "Star Trek" 6/10/1966.

5) THLN appears to have extended influence tentacles into various government agencies, notably the State of Texas Attorney General Office, which refused to take any action against THLN in regard to THLN's horrid barefaced malpractice in fundraising, stating devious disclaimers as to why no action. Soon after the wildly absurd denial letter tossed to us by an unprincipled servile flunky we discovered THLN backed for State Senate, the Texas Attorney General's wife! We reasonably conclude this absence of Texas AG Office intervention against THLN equates to repayment of a political favor. This should be reviewed by the Federal Justice Department! THLN insinuates into both political parties any temptable politician with radical tendencies. "He who will trick will always find another who will suffer to be tricked" ---Niccolo Machiavelli (1469-1527).

6) THLN works with evasive animal shelter managers to try and reduce the accountability of and disclosure by these shelters; and to prevent shelter managers from having to change their ways. This was demonstrated in spring 2011 when THLN defeated Texas HB 3450; it also would have forced shelter managers to do more to cooperate with rescue groups! Shelter managers of dozens of shelters wanted to continue killing “excess” pets by carbon monoxide gassing taking over 20 minutes to kill; and many pets got gassed TWICE! In 2019 THLN opposed Texas HB 921 and HB 3092; which require intake and disposition records of animals and posting notice of contagious infection present in a shelter! THE PUBLIC HAS NO RIGHT TO KNOW SAYS THE THLN! THEY DESPISE TRANSPARENCY! THLN insiders include people linked to very high kill shelters; such as Sherry Ferguson of Houston Humane Society and a veterinarian, Lynn Stucky, elected to the Texas Legislature from the Denton area. Look up the You Tube video “Stucky euthanized hundreds of family pets without cause,” this is the type of “humane” viper pit THLN is! DR. PHIBES, REJOICE!

7) THLN baneful influence is extraordinarily corrupting, mesmerizing and paralyzing against corrective action as demonstrated in refusal to act when informed of THLN fundraising misrepresentation, on the part of various entities including Southern Methodist University Department of Law, which we notified on November 2, 2019 and they made no response and took no apparent action. Texas Tribune, Dallas News and Fox TV also received that message and demonstrated zero public interest concern for the ongoing perverse situation. Disgraceful media resolve to shield “humane” sleaze is confirmed by the 1600s French proverb, “Innocence finds not nearly so much protection as guilt.” THLN also metastasized into the State Bar of Texas with an Animal Law Section; and interlocks with the Dallas and Houston Young Lawyers Association who come off like rejects from a “Perry Mason” episode! Why so many attorneys in this picture? Is it about

getting municipal business? Have they seen the “Lawyers in Cages” video on You Tube? CHECK IT OUT! THLN radiates vibes like they’re an official State of Texas government agency! THEY ARE NOT! Hey THLN---got any linkage to the Texas DPS? THLN! The Presidium and SPQR of Texas! THLN = Capo Di Tutti Capi and Imperial Czars of state animal law! Will THLN send the Praetorian Guard to silence us? See, free speech shouldn’t apply if you fault find THLN!

8) THLN insinuated its spidery sinister influence into the Austin Better Business Bureau in that when contacted with objection against the BBB rating of THLN’s materials as “truthful,” BBB refused to correct; then we discovered a former THLN official inside the BBB structure, we complained of glaring bias; within two weeks the ex THLN official exited the BBB and horsefly buzzed elsewhere. Still the BBB refuses to correct its review; however, the BBB did object to THLN’s financial reporting, and as of fall 2019 THLN deleted from its site “BBB Accredited Charity” as the BBB review did say of THLN “Standards Not Met.” We are waiting for Albertson’s Stores to act responsibly and permanently jettison THLN from its Reward Card program. BBB’s nationwide are complained of running “protection rackets,” and in 2010 the Connecticut Attorney General inclined towards that view. If a very disgraced group distances from THLN, what in God’s name does that say about the Terrible Hellish Liar’s Network? Texas pets deserve better than this sinful 666 moral chancre organization! Texas HB 593 regarding police training to avoid shooting pets, passed in 2015 with THLN backing, does not excuse THLN from the 30,000 pets who were gassed due to denial of relief at THLN’s insistence; it merely serves as veneer for THLN corruption. All demagogues must have some good deed to point to for attempt to squelch criticism of great harms inflicted.

9) THLN affiliated personalities are the quintessence of flagrant hypocrisy while very fraudulently posturing as pet benefactors. Case

in point---Valerie Watson of Don't Forget To Feed Me pet food bank, who is a person "in" with the THLN and by taking this stance favoring THLN, has tacitly said that the 30,000 Texas shelter pets denied relief from death by nightmare hellish gassing due to THLN intervention to deny them merciful relief---that those shelter pets had no value; that those doomed pets counted for NOTHING; and that they don't merit any memorial as to their avoidable horrific suffering at the GUILTY hands of the REEKING MORAL SCUM THLN! Watson has no business in any pet food bank enterprise due to her stunning hypocrisy! Will she now denounce and disavow the THLN? That is very DOUBTFUL! Aww gee, someone out there doesn't like "postcards!" She can watch "Witchfinder General" (1968) and glow with throbbing admiration for the murderous evildoer insisting he was doing God's work. Satire is protected speech (485 U.S. 46, 1988 unanimous Supreme Court). Approval of avoidable gassing of 30,000 shelter pets does not harmonize with a charity of providing pets with food! Those 30,000 pets who were gassed are as good as any 30,000 pets fed by Don't Forget to Feed Me! Watson led a protest march against Stickland who defeated the "tethering" bill; we haven't noticed Watson leading a protest of THLN over the 30,000 gassed pets denied relief by her THLN pals! We cannot understand this vicious reprobate lack of conscience on the part of THLN linked "charities" including Sherri Soltes of Service Dogs! THLN leaders starkly remind of the gruesome salt vampire on "Star Trek" who hypnotized Dr. McCoy into thinking the demon was an old flame of his!

10) THLN is the Texas state affiliate of the Humane Society of the United States (HSUS) which has been jolted by numerous severe scandals including a multimillion-dollar settlement in 2014 connected to RICO charges ("Racketeer Influenced and Corrupt Organization Act") for fraud, bribery and more. Hordes of people filed Federal Trade Commission complaints against HSUS for deceptive fund-raising tactics. Pacelle of HSUS made mega-millions off the "humane

appeals” industry and resigned in disgrace over a sex scandal. In 2014 the Oklahoma Attorney General issued a consumer warning against HSUS. News On 6 Oklahoma had this on 1/22/15---"Julie Bays, Chief of the Public Protection Unit, said she is perplexed why the HSUS chose to file a lawsuit rather than disclose documents that could prove transparency in the organization's charitable efforts. Our office will not tolerate any charity using misleading or untruthful solicitations to take advantage of the generosity of Oklahomans." In September 2019 a HSUS official was sentenced to prison for armed robbery. Former HSUS VP David Wills got a 15-year sentence for sex trafficking a minor! Six members of Congress have called for Federal investigation of HSUS! HSUS advertised for a Texas state director in fall 2019---salary \$200,000! Activist Facts calls HSUS “a true multinational corporation” confirmed by Coleman Burke, an HSUS trustee with his office at One Wall Street (1970 “Who’s Who”); Wall Street apparently has camouflaged “animal rights” as a cash cow for many years! A Rockefeller was president of ASPCA 1956-1964! In 2014 HSUS put \$55.3 million into offshore accounts! Give to local rescue groups after they prove no connection to Texas “Humane” (??) Legislation Network, HSUS and ASPCA! These groups are “tumors of injustice” (“Dr. Zhivago” 1965). For 2017 the president of ASPCA was paid \$852,231 and it reported \$273 million in assets (Animals 24/7).

11) What is wrong with Federal and State regulators? The SEC was warned for years about Bernard Madoff and failed to intervene timely! The case against THLN fundraising by misleading tactics is clear cut. MAIL FRAUD, WIRE FRAUD and TAX FRAUD are apparent though we are not experts in those fields we sure can have the opinion their actions rise to those levels. Expertise is not needed to notice a rat’s rump on a banana split! Texas Pet Protect raised these issues online as of late March 2019; THLN is a veritable cottonmouth nest of flaky lawyers; and none move to file any libel suit against Texas Pet Protect. Why? No reason besides the time-honored dictum

“The Truth Is An Absolute Defense Against Libel.” Sooner or later a Federal regulator WILL crack down on THLN! “You’re in trouble! Whatever happens you’re sunk!” (“Bad Day at Black Rock” 1955). THLN! Think about the word “CAPSIZED.”

12) Texas media---newspapers, magazines, radio and TV stations and websites to date, as information censors, have been a remarkable classic textbook phenomenon of UNMITIGATED SHAMEFUL DISGRACE in refusing to present any expose of Texas “Humane” (??) Legislation Network to the Texas public; and are therefore still NOT acting as “watchdogs” for consumer protection! We do wonder if money has been spread around to “investigative journalists” and is there another problem---tyrannically deciding what the public will and will not be informed concerning? “Watchdog” Dave Lieber (tragicomical figure) refused coverage of THLN scandals---instead he was concerned over coffee cup sizes at Starbucks! A bogus group raking in millions \$\$ by false pretenses and failure to disclose material fact to donors? Not news to “rattlesnake” Dave Lieber and his sin champion coral snake media peers! Lakewood Advocate and Dallas Culture Map refused to post corrections after we complained to them about THLN delaying the end of pet gassing by two years! Regarding THLN Texas media acts servile like newspapers in the 1870s being supplied editorials by Standard Oil. Media sources we contacted refused any coverage; it’s now up to grass roots distribution on social media to get the word out about Texas Inhumane Hexing Legislation Webwork! And let Texas media get constipated over not being able to keep a Berlin Wall of silence on this matter! You say “media will never give coverage after you insulted them” they were never going to cover this regardless! They will be forced to report when FEDERAL REGULATORS ACT TO CORRAL THE THLN! Thorough details are here at Texas Pet Protect! Complain to all Federal regulators---IRS; Federal Trade Commission; Federal Communications Commission; Postal Inspection Service about

THLN deception by omission in fundraising! “The press is, almost without exception, corrupt” ---Henry David Thoreau (1817-1862).
